

MCA-700 Midline/Reissue Series:

By the time the reissue series reached MCA-700, most of the ABC reissues had been accomplished in the MCA 500-600s. MCA decided that when full price albums were converted to midline prices, the albums needed a new number altogether rather than just making the administrative change. In this series, we get reissues of many MCA albums that were only one to three years old, as well as a lot of Decca reissues. Rather than pay the price for new covers and labels, most of these were just stamped with the new numbers in gold ink on the front covers, with the same jackets and labels with the old catalog numbers.
